PRIMARY INTEGRATION RANKED #4 BY CONSULTING-SPECIFYING ENGINEER MAGAZINE –
2017 COMMISSIONING GIANTS

PRIMARY INTEGRATION

“Primary Integration Solutions Inc. (No. 4) reported data in 2017, but was not on the MEP Giants or Cx Giants list in 2016, and knocked several perennial contenders lower down the list. This firm reported the largest amount (95%) of its revenue from commissioning, a higher percentage than any other firm.”

PRIMARY INTEGRATION RANKED #4 BY CONSULTING-SPECIFYING ENGINEER MAGAZINE – 2017 COMMISSIONING GIANTS

Primary Integration Solutions, Inc. (PI Solutions) has been ranked the 4th largest commissioning company by Consulting-Specifying Engineer (CSE) magazine in their 2017 Commissioning Giants list. Each year, this list recognizes the top 25 firms based on the percentage of commissioning work completed in the past fiscal year, as a total of their total MEP design revenue. PI is ranked number 54 on the overall 2017 MEP Giants list, which is made of predominantly engineering firms. According to CSE, in 2017, commissioning brought in \$418.7 million in revenue for all 100 MEP Giants firms. The top 25 firms for 2017, made \$331.9 million in revenue.

“Primary Integration Solutions Inc. (No. 4) reported data in 2017, but was not on the MEP Giants or Cx Giants list in 2016, and knocked several perennial contenders lower down the list. This firm reported the largest amount (95%) of its revenue from commissioning, a higher percentage than any other firm.”

Revenue generated by PI Solutions providing mechanical, electrical, plumbing and fire protection engineering services totaled \$25 million for the 2017 MEP Giants ranking. That amount was made up of 95% Mission Critical / Data Center Commissioning Services.

PI Solutions is the largest Mission Critical / Data Center focused 3rd Party, Independent Commissioning business and has provided commissioning services for more than \$12.5 billion in new construction in the past five years. In addition, the firm has provided commissioning and related services for more than 500 million square feet of existing building space during the same timeframe. PI Solutions has over 100 commissioning professionals, including 14 Certified Cx Authorities located in strategic regions throughout the US and Europe allowing the firm to provide commissioning services globally.

“We’ve seen significant growth because data center facility owners and developers are increasingly finding that commissioning is necessary to ensure that equipment, materials and systems are installed properly and operating as efficiently and reliably as designed,” said Kelly Decker, President. *“Commissioning professionals are increasingly engaged early in the project design and construction cycles as a strategy to better manage project budgets, reduce project risk and deliver a fully operational facility on schedule.”*

The MEP Giants Program, sponsored by Eaton, acknowledges the top firms that innovate the MEP and fire protection sector. The in-depth analysis of these firms reveals industry insights to gain a greater understanding of how the industry changes year after year.

About Primary Integration Solutions

PI is an independent 3rd party, industry-certified commissioning firm with a staff of engineers capable of verifying the reliability of all components and systems within a mission critical facility by utilizing our proven commissioning processes. Our team of professionals consists of experienced and knowledgeable commissioning engineers that have designed, operated, and commissioned numerous, complex mission critical facilities. We were the first, and currently the only, independent ISO 9001:2008 certified commissioning firm in the world. This certification ensures that despite distinctions between projects, our commissioning approach and implementation is exercised with consistency, giving our clients the greatest level of comfort that PI will deliver their project successfully.
